Dear Mr. Weisberg,

I guess that of the twenty plus books I've read about the assassination of President Kennedy, your name is mentioned most in terms of thanks in the various prefaces. I would also like to add my thanks to you for all of your work to bring about some justice in terms of this murder. I was a very young boy when the principal of my elementary school came to our class and took us down the hall to another class that had a television set. That day I saw a man with amazing energy (what he called "viga" in that marvelous Boston accent) and presence. In what was one of his greatest speeches, he called for us to "ask not what our country could do for us but to ask what we could do for our country." These are words that I feel to this very day, and I think one of the very best things we could do for our country would be to bring the people who murdered our President to justice. I will never give up. If that makes me a nut or a conspiracy buff or any other of that horseshit that reactionaries use to describe those of us who want justice so be it. Unlike Posner's bullshit book that can be found anywhere, your book "Case Open" cannot. Would you please send it along with your bill to: Thomas Shelton (415) 333-9096

Thank you for your heroic efforts and stay encouraged. Please remember that from the "most bitter battles come the sweetest victories."
